BUILDING THE FUTURE OF HEALTH CARE

HPCA

COMMUNITY HEALTH CENTERS (CHCs)
ARE THE CORNERSTONE OF THE HEALTH
CARE SYSTEM IN HAWAI'I, PROVIDING
ESSENTIAL SERVICES TO OUR MOST
VULNERABLE POPULATIONS.

PEOPLE, NOT PROFITS

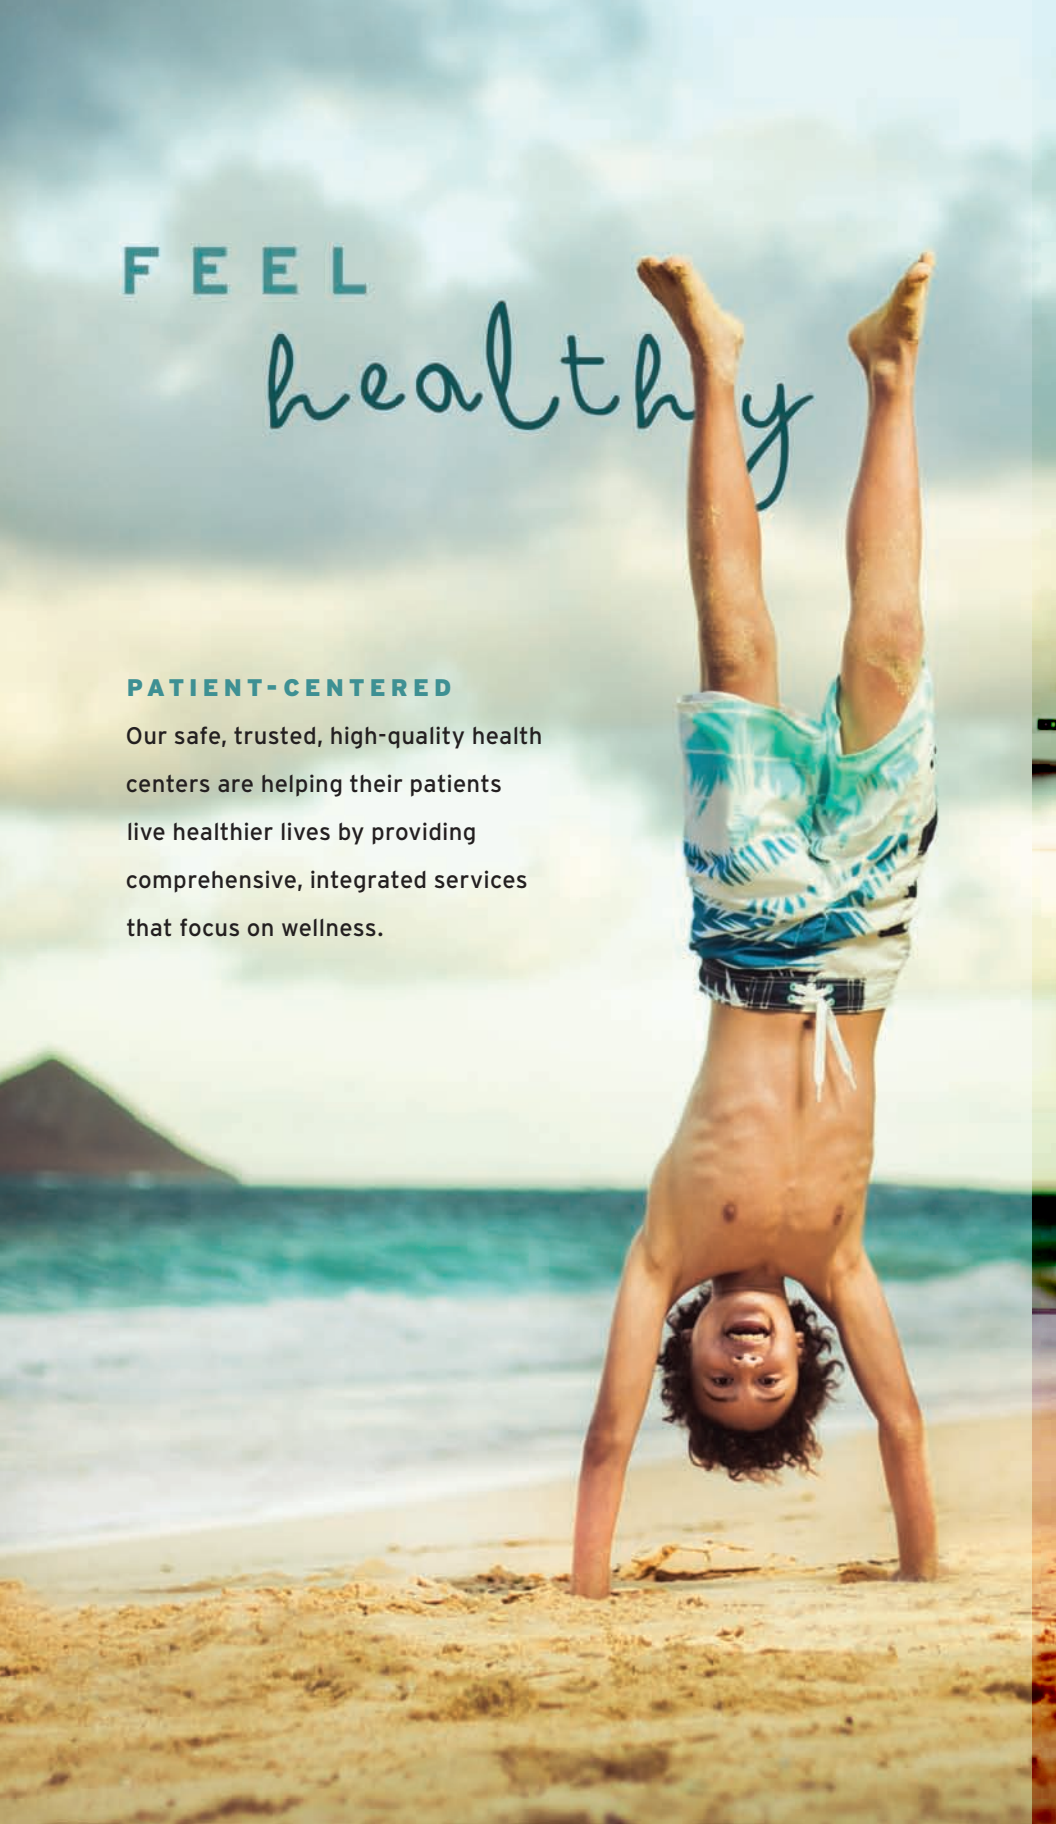

CHCs are non-profit organizations, and exist in federally-recognized areas where residents have barriers to getting health care. They also actively reinvest in the development of the communities they operate in.

FEEL

healthy

PATIENT-CENTERED

Our safe, trusted, high-quality health centers are helping their patients live healthier lives by providing comprehensive, integrated services that focus on wellness.

FEEL confident

INNOVATION

Hawai'i's CHCs have transformed health care by using integrated, proactive provider teams and the most advanced health information technology to provide better care for patients.

FEEL welcome

ACCESS FOR ALL

CHCs provide health care to all patients, regardless of their ability to pay. Put simply: everyone is welcome at a Community Health Center.

FEEL *secure*

COMPREHENSIVE CARE

CHCs offer a complete array of services that includes primary medical, behavioral, and dental care, integrated with specialty care and other wellness services like nutrition.

FEEL
proud

COMMUNITY GOVERNED

Each Community Health Center is governed by a board of directors, the majority of whom are their patients. This makes CHCs highly responsive to the needs of their individual communities.
